

Execution Spree In Iran And Confirmation Of Death Sentences For Activists Behrouz Ehsani And Mehdi Hassani

We, the undersigned international experts and NGOs, unequivocally condemn the Iranian authorities' escalating campaign of politically motivated executions. These acts represent a grave assault on human rights and a deliberate strategy to suppress dissent.

Behrouz Ehsani, 69, and Mehdi Hassani, 48, are in imminent danger after the Supreme Court upheld their death sentences and turned down their request for judicial review. Their charges include "membership in the PMOI/MEK", "propaganda" in support of the organisation, "preparing and sending videos to the organisation", all of which are defined in the regime's legal system as "enmity against God," and "corruption on earth." Their kangaroo trial on 10 August 2024, lasting just five minutes, was a travesty of justice: they were denied legal counsel for nearly two years, tortured, and silenced during proceedings. Allegations of torture—including beatings, prolonged solitary confinement, and threats against their families—were ignored.

We demand an immediate halt to their execution. The international community must not remain silent.

Dozens of political prisoners, including Abolhassan Montazer, Akbar Daneshvarkar, Babak Alipour, Mohammad Taghavi Sangdehi, Pouya Ghobadi, Vahid Bani Amerian, Pakhshan Azizi, Verisheh Moradi, and Sharifeh Mohammadi, face imminent execution following grossly unfair trials. Several have been forcibly transferred to Qezel Hesar Prison, a notorious execution site. Since President Masoud Pezeshkian assumed office in August 2024, over 1,000 executions have been carried out, targeting women, juvenile offenders, ethnic and religious minorities, and dissidents in a calculated effort to prevent a renewed uprising and crush demands for democratic change.

The Iranian authorities' systematic targeting of political prisoners is rooted in a culture of impunity, fuelled by the failure to hold perpetrators accountable for past atrocities. This was documented in the July 2024 landmark Atrocity Crimes report by UN Special Rapporteur on Iran, Prof. Javaid Rehman, which found that the 1981-82 mass killings and the 1988 massacre constituted crimes against humanity and genocide. No Iranian official has been held accountable for these atrocities; instead, the perpetrators have been promoted to the highest levels in the government, judiciary, and security apparatus.

Iran's crackdown on political prisoners flagrantly violates international human rights law, including the rights to a fair trial and freedom from torture. The courage of prisoners like Ehsani and Hassani, reflected in their participation in the "No to Execution Tuesdays" hunger strikes, staged in more than 40 prisons in Iran every week since January 2024, underscores their defiance against such brutality.

We stand in solidarity with Iran's political prisoners and their families and are committed to amplifying their voices until justice is achieved.

We welcome the European Parliament's 3 April 2025 resolution, condemning the death sentences for Ehsani and Hassani, and the UN Special Rapporteur's 6 February 2025 letter to the Iranian authorities, warning against the violation of their rights.

We urgently call upon the UN High Commissioner for Human Rights, all relevant UN Special Procedures, the Independent International Fact-Finding Mission on Iran (FFMI), and all democratic governments to intervene to halt these executions.

We encourage the international community to identify and sanction Iranian officials responsible for human rights violations, and to make the abolition of the death penalty and the release of political prisoners a condition for improving relations with Iran.
